Quirónsalud Málaga  
Hospital

## Quirónsalud Málaga Hospital

*Quirónsalud Málaga Hospital* was opened at the end of 2009. After few years has become the benchmark for the private health care to the entire population of Málaga. More than 850 employees, including 200 physicians and surgeons from different specialties to provide high quality comprehensive care. We emphasize attention to international patients, growing year after year, due to our provision of additional services, especially designed for every need, personalizing all of our services. Patients care guides our steps, always seeking the welfare of patients and their family members or travel companions.

*Quirónsalud Málaga Hospital* is the establishment within the Quirónsalud Group with the greatest registered growth, both in terms of activity and turnover, in Andalusia in the last few years. Our hospital currently registers 30,000 hospitalisations; 13,600 surgical procedures; 1,200 births; 272,000 medical consultations; 104,000 emergencies and 85,000 radiology studies. These achievements

would not be possible without the continuous effort of our medical teams and personnel, who have contributed significantly to this hospital's success and the creation of units that are a reference for the entire province, i.e. the Institute of Oncology of Andalusia, Surgical Institute of Andalusia, Comprehensive Oral and Maxillofacial Surgery Unit, Odontology and Orthodontics, amongst others.

Our hospital is a leader in Paediatrics and Neonatology, Gynaecology and Obstetrics, Assisted Reproduction, Advanced Laparoscopic Surgery, Traumatology and Orthopaedics, as well as the treatment of the Digestive System, amongst other specialities. *Quirónsalud Málaga Hospital*, with nearly 25,000 square meters of modern facilities offers 124 rooms, avant-guard equipment, and an imaging diagnostic service which includes the latest diagnostic technological advances, such as 3 Teslas MRIs and CT scanners. We also have clinical laboratories for clinical tests, anatomic pathology and assisted reproduction.

*Quirónsalud Málaga Hospital* provides Adults, Pediatric and Gynecological Emergency Services 24 hours-ICU for adults and, the best equipped Neonatal ICU on private health basis in Málaga, the only one which attends deliveries of less than 34 weeks. Additionally, we have an area of Neurosciences, made up of specialities such as Neurosurgery, Neurology and Neuropsychology, with a Sleep Unit where we treat all the disorders associated to sleeping. Moreover, Hospital Quirónsalud Malaga specialises in reconstruction surgery and has a Comprehensive Breast Unit.

Our multilingual health service to international patients is of the highest standard and increases every year with our offer of additional services specially designed for each need, with personalised assistance while you stay with us. Patient care is our primary concern and we strive to offer our patients a satisfactory stay, caring for their wellbeing and that of their families.

*Quirónsalud Málaga Hospital* belongs to group Quirónsalud Hospital Group, the largest hospital network in Spain, a wide network of hospitals and health establishments distributed throughout the national territory. *Quirónsalud Málaga Hospital* has reputed doctors, equipment offering the best technology in the market, a full portfolio of specialities, exclusive facilities and accommodation services. A strategic location for a leading private medical centre on the Costa del Sol, with an international patient service which is associated to most of the insurance companies.

## Quirónsalud Parque Litoral Medical Centre

The new **Quirónsalud Parque Litoral Medical Centre** offers medical services over an approximate area of 2,000 square metres. It is divided into four independent areas: two on the ground floor, with direct access from Avenida Imperio Argentina (the same street as that of Hospital Quirónsalud Málaga), and another two on the first floor.

It is a next-generation medical centre, provided with radiodiagnostic equipment and a comprehensive portfolio of medical and surgical services. It has a total of 61 consultation rooms

offering multiple specialties, as well as a new area specialised in rehabilitation and physical therapies and an area dedicated to maternity education, which is integrated within the Obstetrics and Gynaecology Department. These consultation areas are additional to the services already offered at Hospital Quirónsalud Málaga.

- Opening times: Monday to Friday, 8.30 AM to 9.30 PM.

## Quirónsalud Málaga Médical Centre

Inaugurated on May 2016. **Quirónsalud Málaga Medical Centre** is a two-floor 763 square-metre medical centre located in a city centre building in the Malagueta area, which was designed to improve local access to Quirónsalud's health services. We pride ourselves on having an understanding of healthcare that is based on comprehensive and multidisciplinary medicine, a friendly approach and the latest medical innovations as well as a team of prestigious professionals.

Comfortable and agile attention. Integral Units for Orthopedics, Maternal and Children with pre-natal diagnosis, Female Unit, Cardiology, Oral and Maxillofacial surgery, Dental and Orthodontics. 16 Casualty rooms, High-Tech diagnosis, all provided under highest and personalized services.

How to get here

*Quirónsalud Málaga Hospital* is situated at *Avenida Imperio Argentina* no. 1, *Urbanización Parque Litoral*, in the West of Malaga. This is a strategic area with excellent transport connections to the city centre, the various urban centres on the Costa and the main capital cities in Andalusia, offering direct connections to the main urban centres of the province and the city centre:

## Transport Connections

- **N-340:** Airport at 4.2 km and industrial estates of the metropolitan area.
- **A-7:** Congress Hall at 3.5 km and main urban centres on the Costa del Sol.
- **Malaga Motorway:** Seville, Granada and Cadiz.
- **Coast Motorway:** City centre at 4.5 km.
- **Malaga Airport** at 4.2 km.
- **María Zambrano Train Station** at 3.8 km
- **Underground: Line 2, stop at Palacio de Deportes (Sports Palace).** Line 2 of the Malaga Underground System makes it possible for anyone to travel from the western area of the city to the various areas of the city centre. It has stops at *Palacio de Deportes, Puerta Blanca, La Luz- La Paz, El Torcal, Princesa – Huelin, La Isla* with the last stop being *El Perchel*.
- **Taxi:** There is a taxi rank just outside the outpatient care consultation building.
- **Gibraltar Airport** at 125 km.

## By road

Like the rail network, the Costa del Sol road network connects with other cities throughout Andalusia and Spain as a whole, via motorways and toll roads. Attention should be drawn to the A-7 and A-45, excellent infrastructures for vehicular transit. Getting here by bus also proves very easy, as Málaga Bus Station provides connections to practically all areas of Spain and all the towns and villages within the province.

## By train

The Costa del Sol rail network provides connections to other cities in Andalusia and the rest of Spain. Travelling from Málaga, the hub is the Málaga-María Zambrano Train Station (ADIF), which provides high-speed connections between the Costa del Sol and Madrid in two and a half hours, along with links to Barcelona, Seville and Valencia, amongst other cities.

## By plane

The Málaga-Costa del Sol Airport numbers amongst the airports with the highest volume of passenger flow in Spain. Cities such as London, Paris, Berlin, Rome, New York and Moscow have direct connections with Málaga Airport, which is also the main airport of and point of entry into Andalusia.

## By sea

The Port of Málaga, Spain's second most important in terms of cruise ships, caters to the biggest shipping companies in the world and provides sea access to those docking or stopping over in Málaga. The Costa del Sol's capital is a destination for luxury cruises with Mediterranean routes and even berthed what was once the biggest ship in the world in 2015, the Allure of the Seas.

The Port of Málaga also provides direct connections with North Africa, with daily ferries to Melilla.

About Málaga

Málaga is the capital of the Costa del Sol. Ranks fifth in number of inhabitants in Spain. The Municipal Area is 398.25 square kilometres and the population is approximately 568,000 inhabitants, although the metropolitan area has nearly a million inhabitants.

The climatic and geographic factors which have mostly impacted the development and evolution of the city are the influence of the sea, the location of the Municipality situated on two river valleys (Guadalhorce and Guadalmedina), its terrain and climate.

Mediterranean Sea and the Mountains of Málaga, make possible Málaga and its province, to enjoy a mild weather all year round. July and August are the warmest months, and December and January, the coldest. However, temperatures average in Winter vary between 22,8°C and a minimum of 13°C.

Malaga holds natural heritage of great environmental beauty. The natural site of the mouth of River Guadalhorce, situated within a 122-hectare island bordered by the final sections of the river branches, is an area of transit for hundreds of migration species of high ecological value. The Montes de Malaga Natural Park covers an area of 4,996 hectares, providing shelter to over 230 plant species and over 160 vertebrates.

# About Quirónsalud Hospital Group

Quirónsalud is the most important hospital group in Spain and third in Europe. We have medical centres in 13 Autonomous Communities and use the most advanced technologies, with over 6,200 beds in more than 120 medical centres, such as *Fundación Jiménez Díaz*, *Ruber*, *Hospital La Luz*, *Teknon*, *Dexeus*, *Policlínica de Gipuzkoa*, etc., and an excellent team of highly-specialised and internationally-recognised professionals.

We strive to promote academic training in health disciplines (seven of our hospitals are university hospitals) and medical-scientific research (we have the *Instituto de Investigación Sanitaria de la FJD*, which is the only private research centre certified by the State Secretary for Research, Development and Innovation).

In the same way, our health service is organised in transversal units and networks which enables the optimisation of the experience gained in the various centres and the translation of our research to clinical practice. At present *Quirónsalud* is developing over 1,600 research projects in the whole of Spain and many of our establishments are currently developing cutting-edge projects, being leaders in various specialities such as cardiology, endocrinology, gynaecology, neurology and oncology, amongst others.
