- Paediatric ophthalmology
- Glaucoma surgery and treatment

Specialists

Dr Nabil Ragaei Kamel

Head of the Quirónsalud Marbella
Advanced Ophthalmology Centre

Languages:

Spanish, English, Arabic.

Dr Nabil Ragaei Kamel, an Ophthalmology Specialist Doctor with vast professional experience, has been working in Spain since 1998 as an Ophthalmology Consultant and Surgeon. He has been the Head of the Ophthalmology Unit of prestigious hospitals and has vast expertise in cataracts and glaucoma surgical procedures. He is an expert in Excimer laser PRK, INTRALASE, LASIK and FEMTOLASIK techniques as well as in the placement of ICL lenses, about which he has given numerous conferences before national and international audiences. His professional career stands out for his being a pioneer with large experience in premium intraocular implants (EDOF, trifocal, toric intraocular lenses, etc..)

He joined the healthcare project of the Marbella hospital in 2012 as the Head of Ophthalmology. This speciality has become consolidated with the addition of highly-qualified specialists and the continuous technological innovation in equipment. May 2021 marked a qualitative change with the opening of the Quirónsalud Marbella Advanced Ophthalmology Centre. This project is currently a reference in the Malaga Province.
