Quirónsalud Hospital  
Group in Marbella

## Welcome to Quirónsalud Marbella Hospital

Marbella has a general hospital, Quirónsalud Marbella Hospital, to which **Quirónsalud Fuengirola Medical Centre** is ascribed. In our centres, we offer a complete portfolio of medical and surgical specialties, while over 800 employees work every day to offer the best medical and health care to our patients .

- Reputed doctors
- The best equipment and technology in the market
- A comprehensive portfolio of specialties
- Unparalleled facilities and accommodation services
- Hospitals on the beach front with sea views
- International patient service
- Associated to most insurance companies

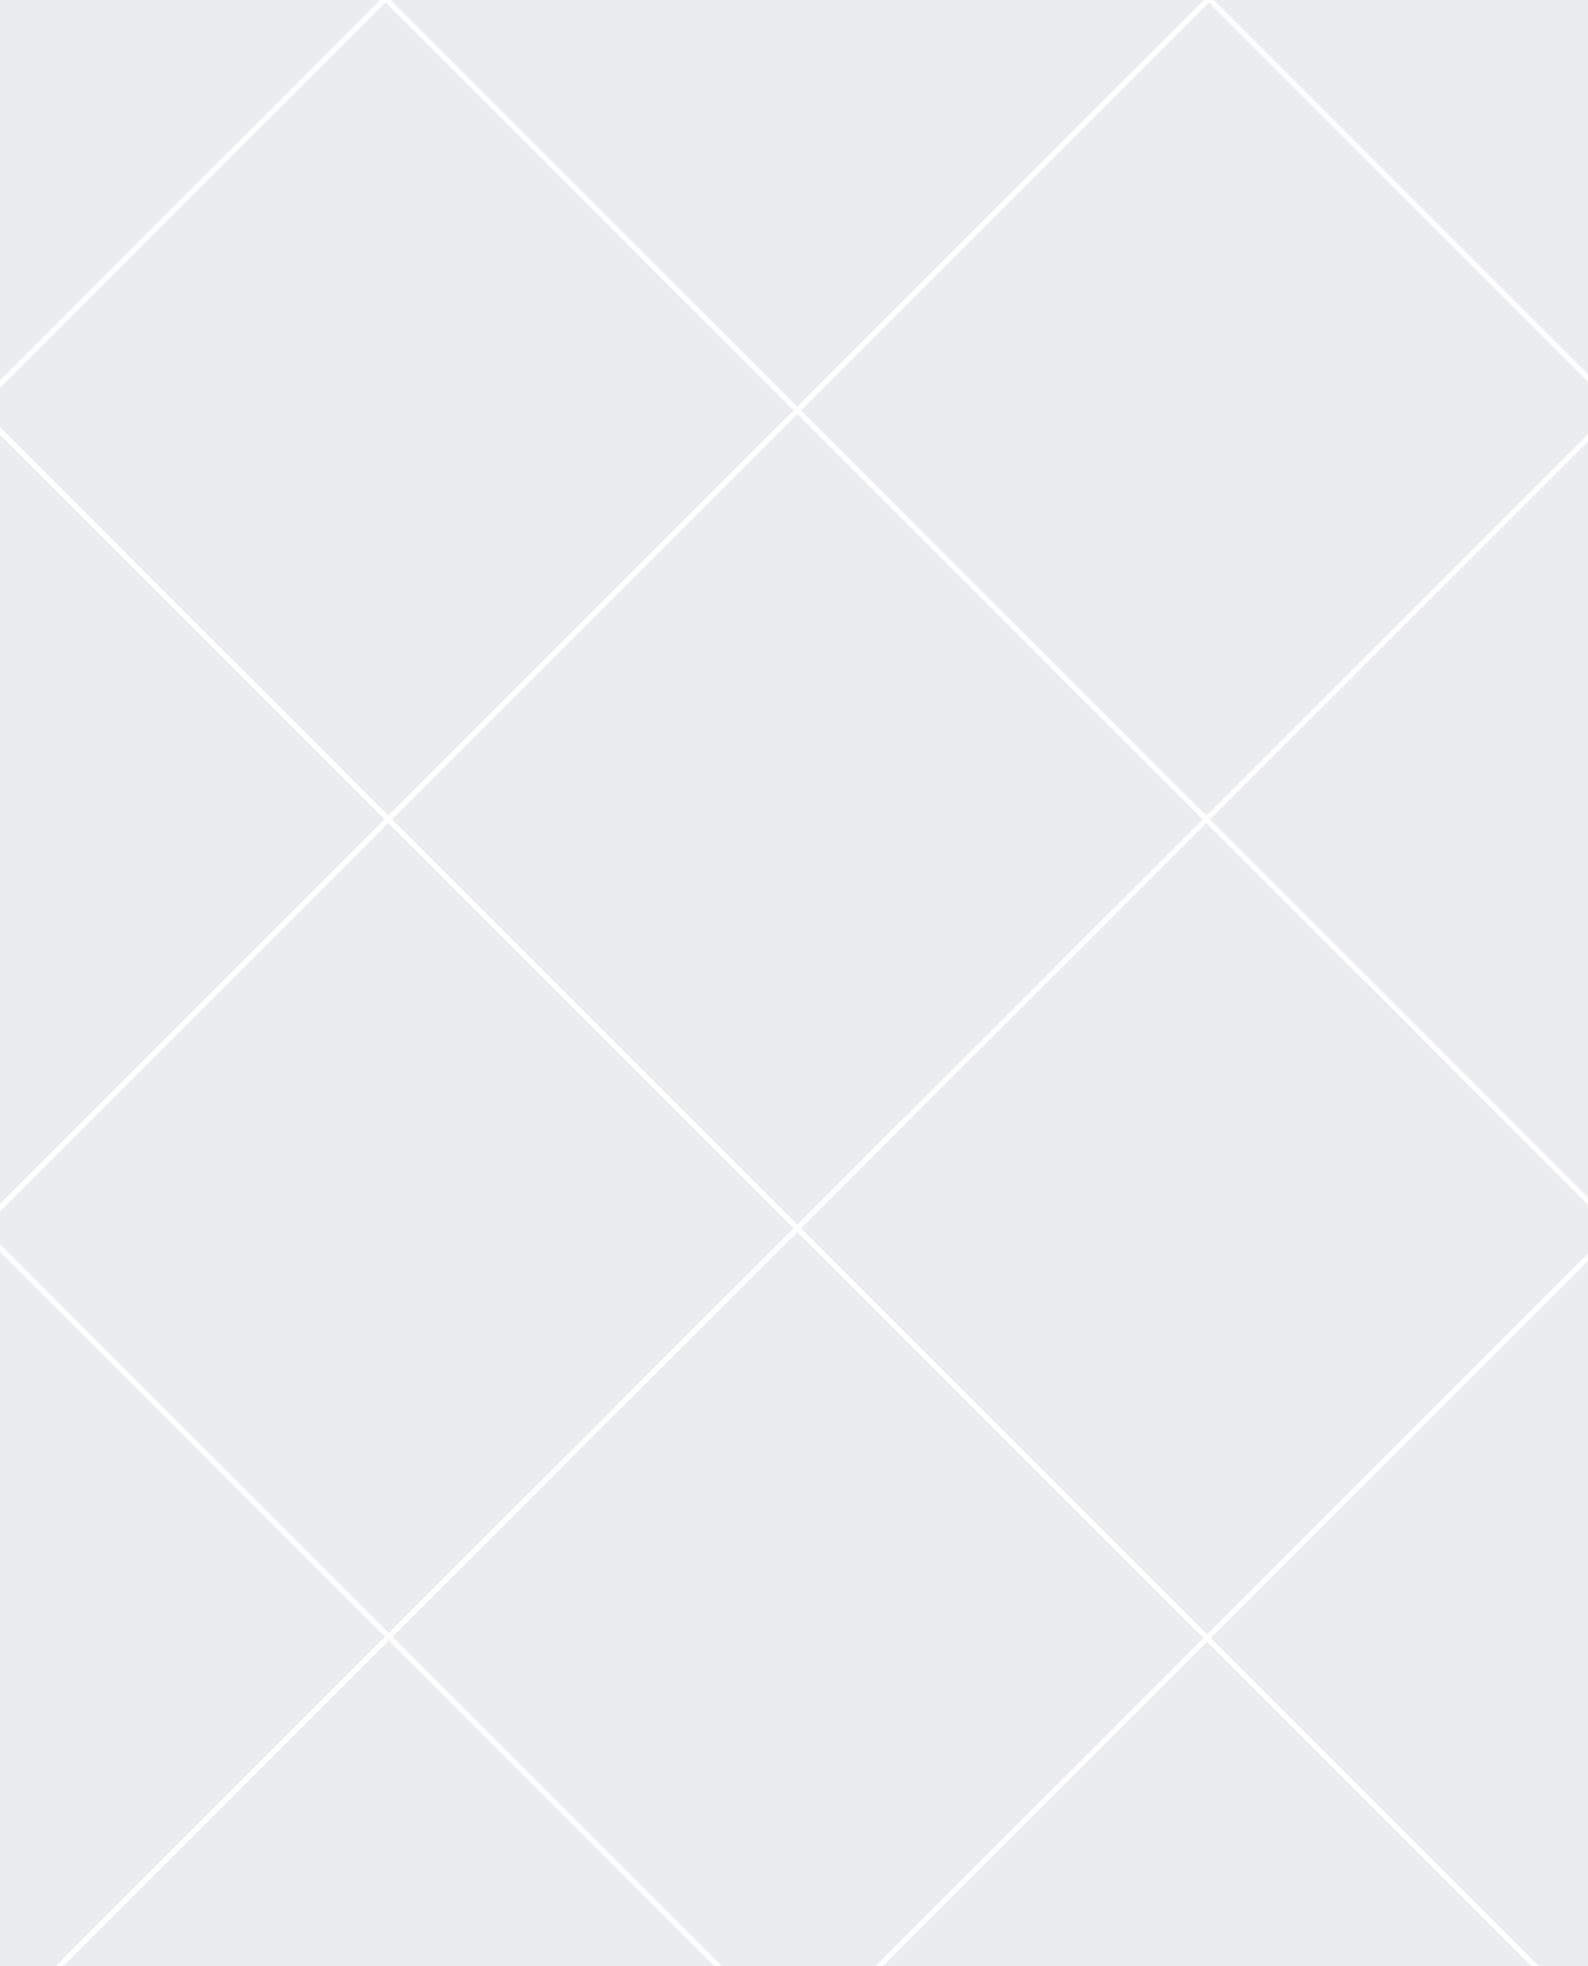

The hospital has surface area of more than 8,000 square meters with the **most advanced technological** equipment for diagnostic imaging, explorations and special treatments, specialist units for minimally invasive procedures, with a dedicated surgical area, a critical care unit and emergency departments. With hospitalization on the beach front with sea views; this is a strategic enclave for the leading private health centre on the Costa del Sol.

**Quirónsalud Marbella Hospital** records an average of 20,000 hospitalisations; sees 100,000 patients in consultation; 75,000 emergencies and 5,000 surgical procedures every year.

Also, it should be noted that **attention to international patients grows year on year due to our specially designed additional services** created to meet their need and offer a personalised service during their stay. Patient care guides our steps in offering you a stay which is always satisfactory and ensures the well-being of the patient and their families.

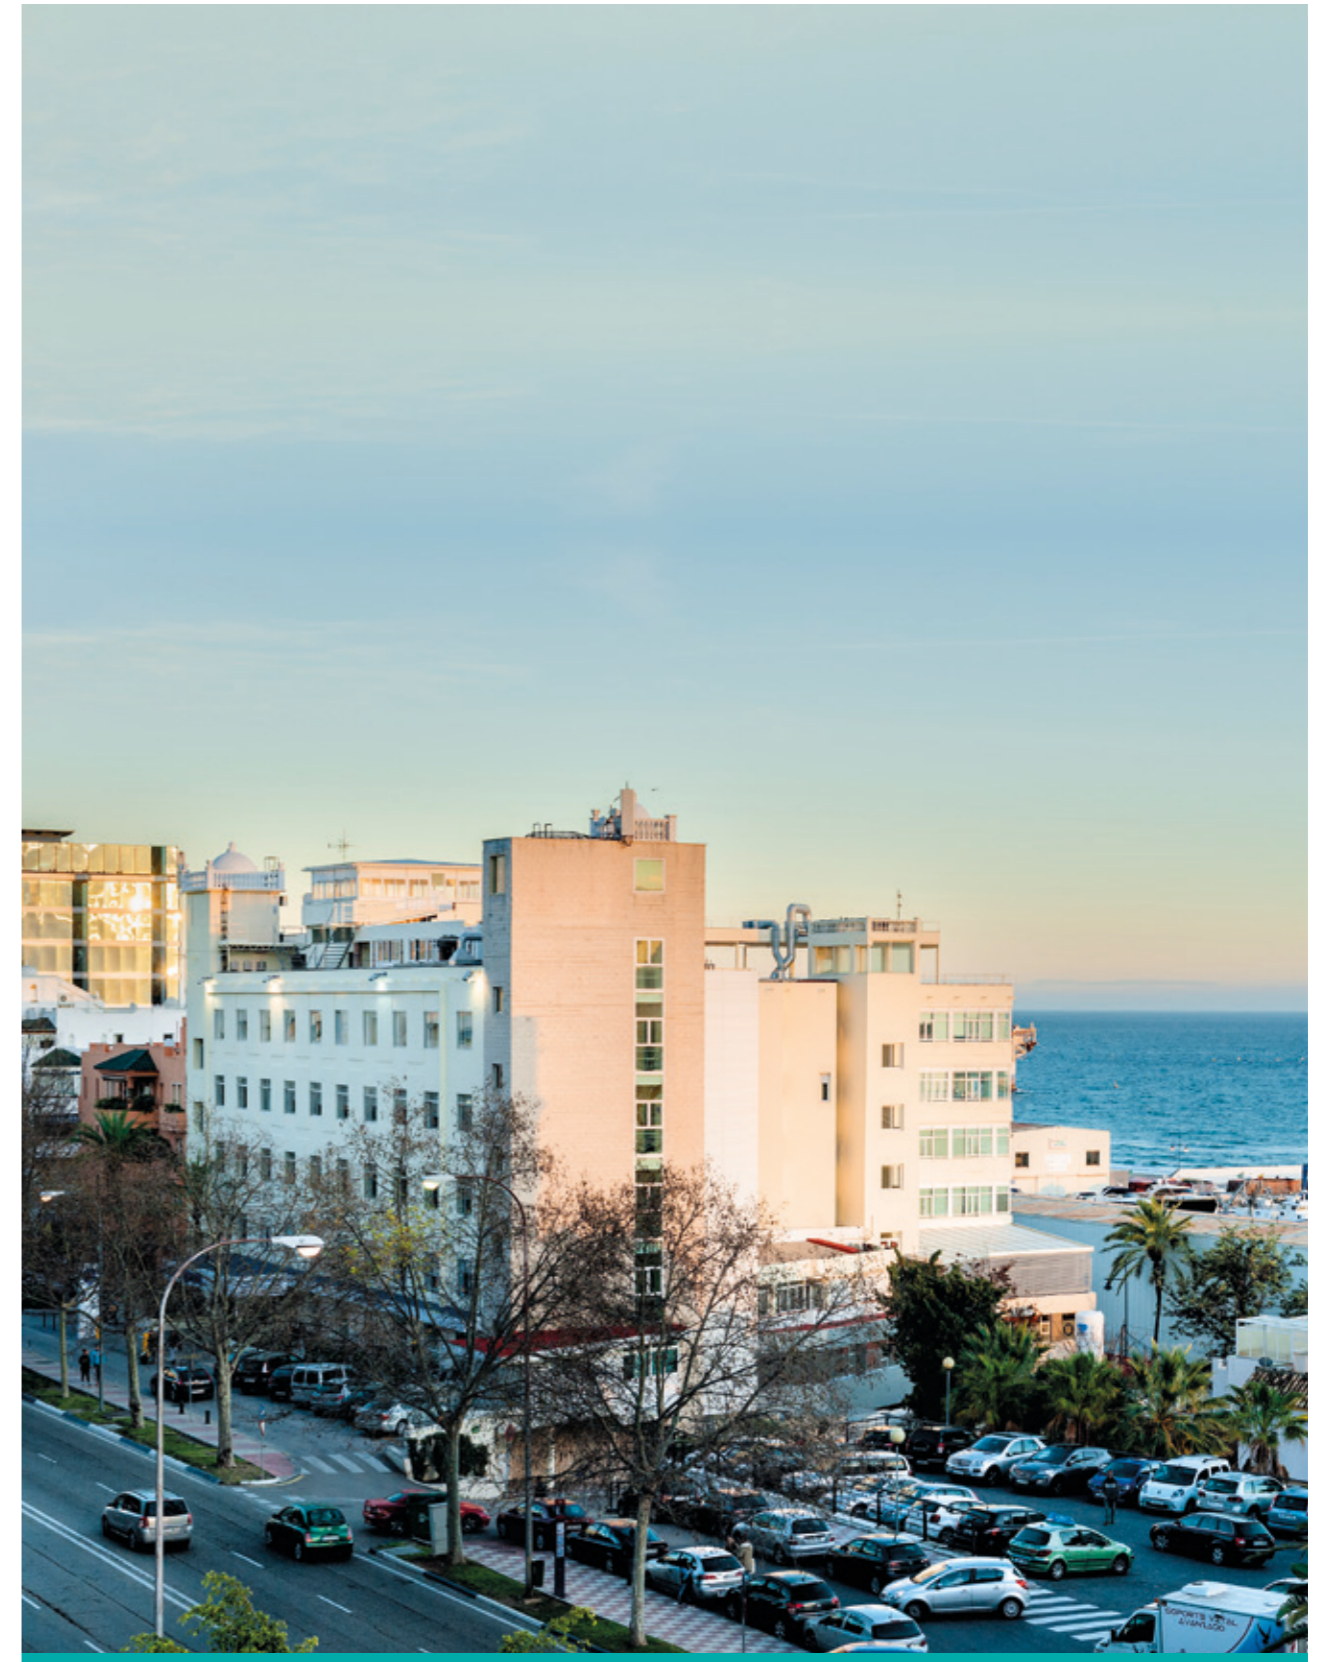

**Quirónsalud Marbella Hospital** belongs to hospital group Quirónsalud Hospital Group, **which is the largest hospital network in Spain, with over 120 hospitals, institutes and medical centres in 13 regions.**

- Ophthalmology surgical microscope

How to get there

## Transport Connections:

- **Malaga Train Station** at 56 km
- **Malaga Airport** at 45 km
- **Gibraltar Airport** at 80 km

### Address:

Avenida Severo Ochoa, 22  
29603 Marbella

## By road:

Marbella can be accessed both by the Mediterranean Motorway A-7 (former national 340), and by the Costa del Sol pay Motorway (AP-7). A new road link is to be built to Ronda, which will considerably reduce the journey time from Marbella to Seville. When the A-7 road is built to pass underneath San Pedro Alcantara this will greatly improve the traffic flow in the local area. In addition, there is an extensive bus service to all the main capitals and cities of our geographical area.

## By train

Marbella is perfectly connected by bus to Fuengirola railway station, 27 kms. away, and to the long-distance railway station, Maria Zambrano, located in the city of Málaga, 57 kms away. From the Maria Zambrano Train Station, you can connect with the high-speed AVE train line that connects Malaga with other big cities: Madrid, Seville, Barcelona, etc.

## By plane

Two main international airports are available within a radius of less than an hour by road:

- To the east, the International Airport of Malaga is just 45 kilometres away.
- To the west, the International Airport of Gibraltar is located just 80 kilometres away.

Both airports ensure direct connections to major cities in Spain, Europe, North Africa and the United States.

From Malaga airport there are various ways of getting to Marbella:

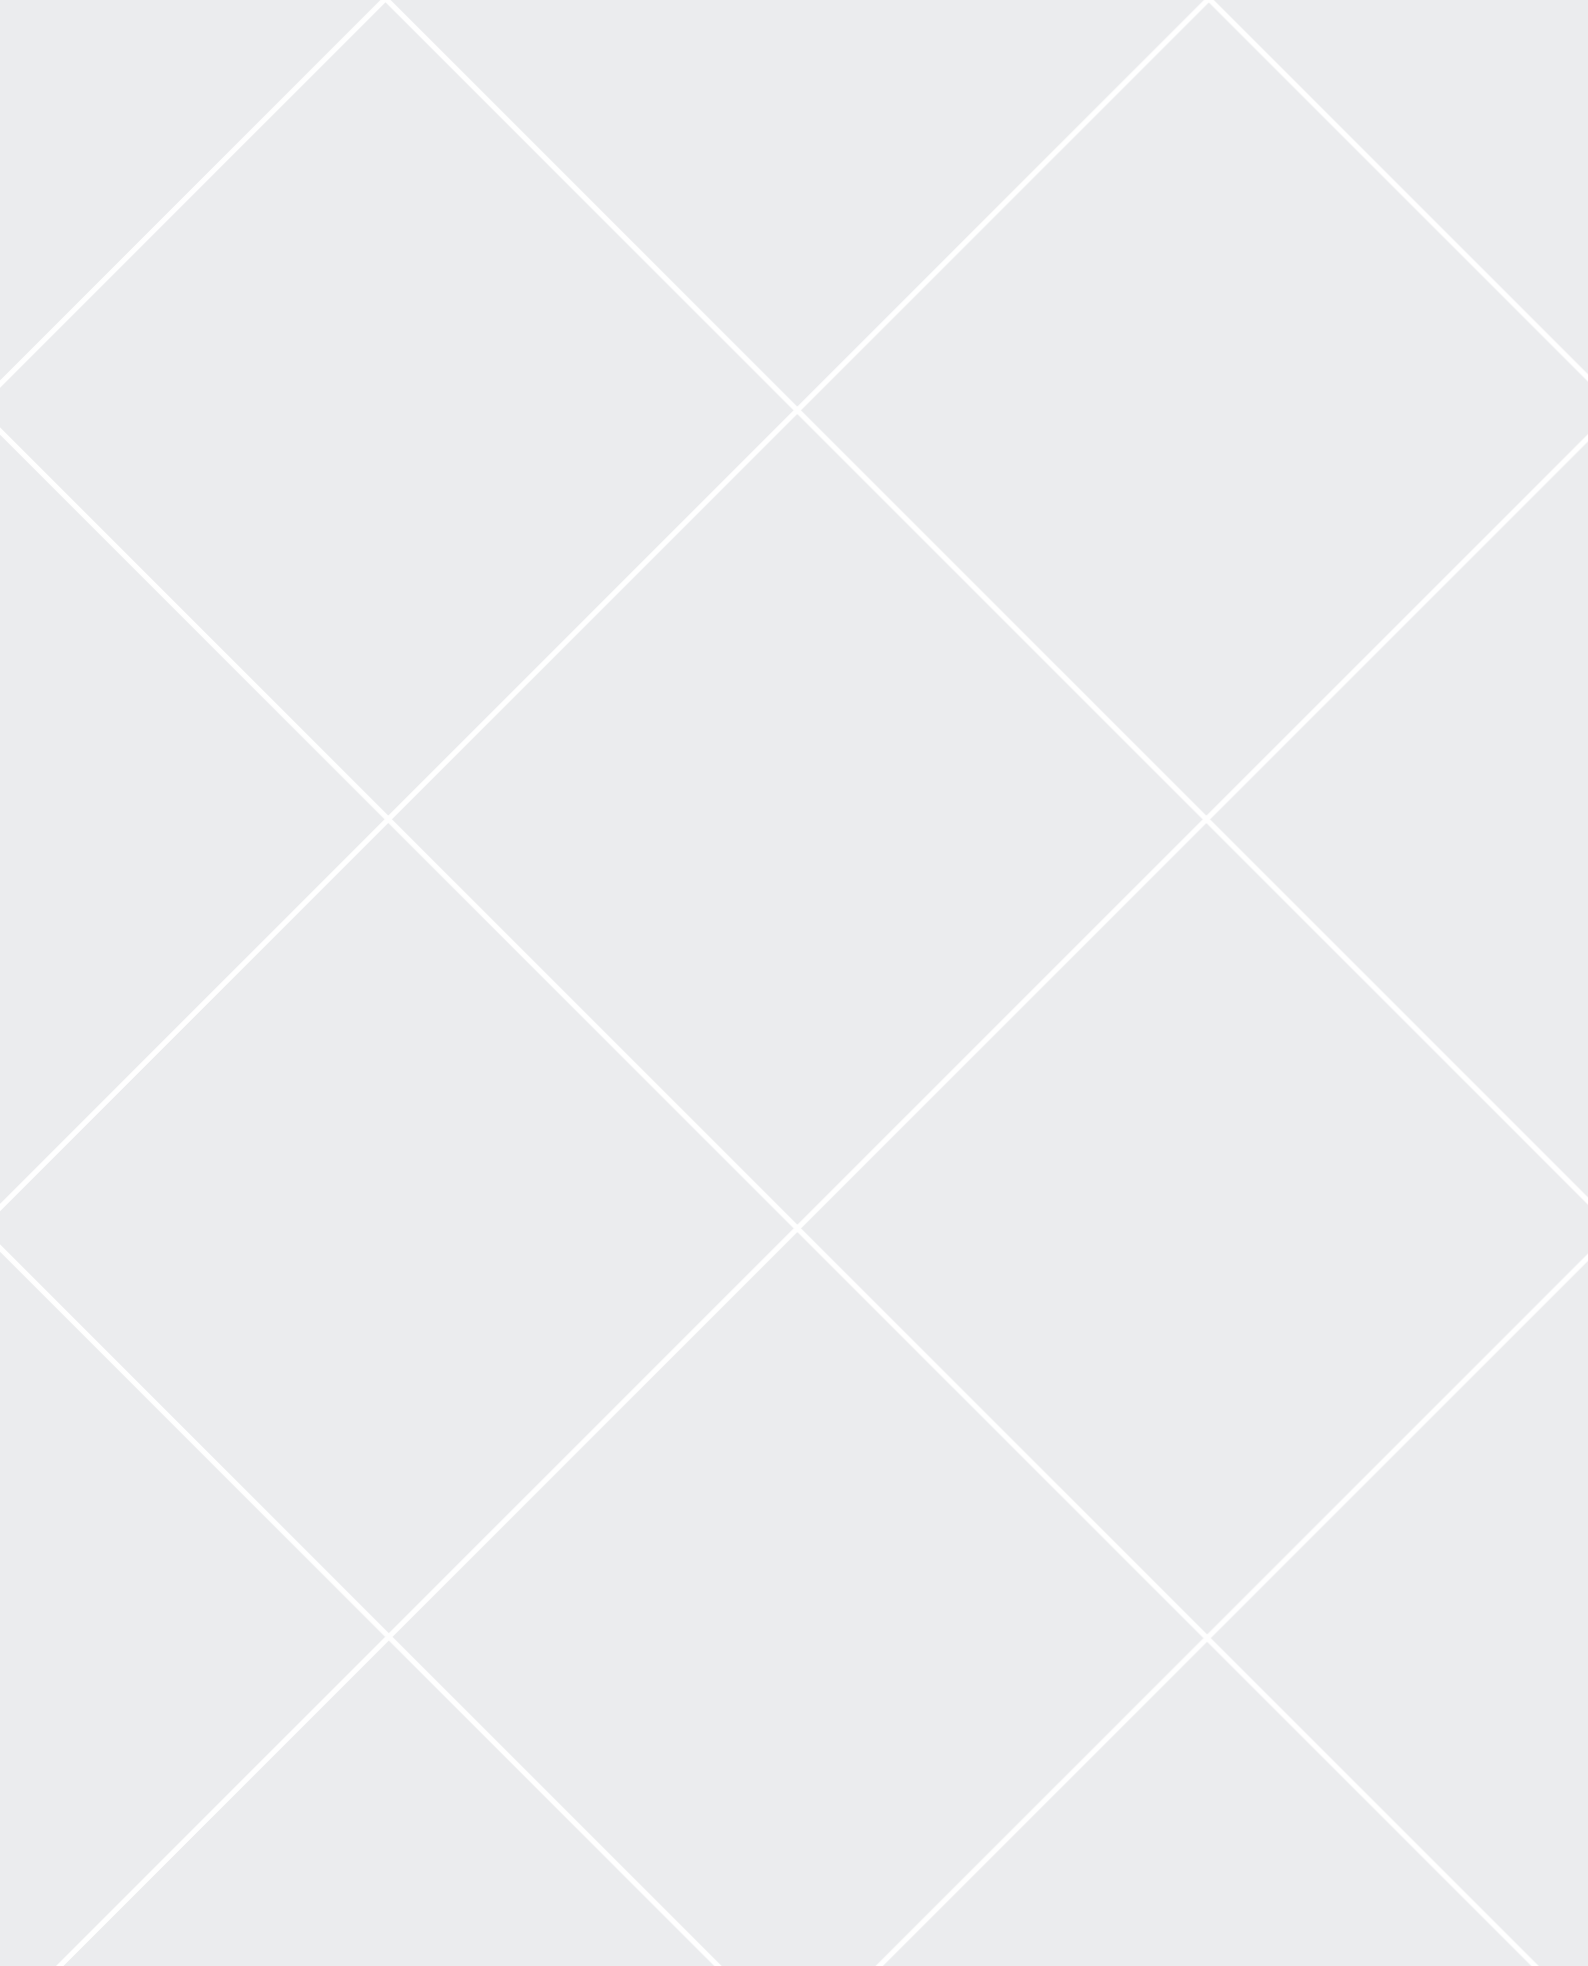

- A direct bus service linking Malaga airport and Marbella bus station, takes about 45 minutes.
- Several car hire companies.
- A taxi service.

## By sea

Marbella has four marinas, including Puerto Banús, that can take medium sized yachts or macro yachts. The expansion project for the Port of Marbella will allow for the reception of medium sized cruise ships that in conjunction with the new Port services in Málaga will increase the access to the city from the sea.

Finally, the proximity to Tarifa and Algeciras, ports offering ferries, allow easy access to the autonomous cities of Ceuta and Melilla and the cities in the north of Morocco.

About Marbella

The location of the **Quirónsalud Marbella Hospital** in the main tourist centre of the Costa del Sol gives the centre an international dimension, as it welcomes visitors from all over the world. **Located on the beachfront, opposite the fishing port of Marbella, the majority of its rooms are facing south with sea views**, giving a unique character to the centre. Marbella stands out for its privileged climate, internationally recognized. **The average annual temperature hovers around 18.5C, with 320 days of sunshine per year.**

Sunbathing, swimming in the tranquil waters of the Mediterranean Sea, having lunch in a restaurant on the beach, having an appetizer in an exclusive beach club... these are just a few suggestions for how to enjoy the more than **27.9 km of beaches in Marbella, the best on the Costa del Sol.**

Very few cities in the world can show off about having **three restaurants with Michelin stars**. The gastronomic standards and the variety of national and international cuisine that you'll find in Marbella are extraordinary. **With more than 600 restaurants** at your disposal, avant-garde and tradition merge in Marbella.

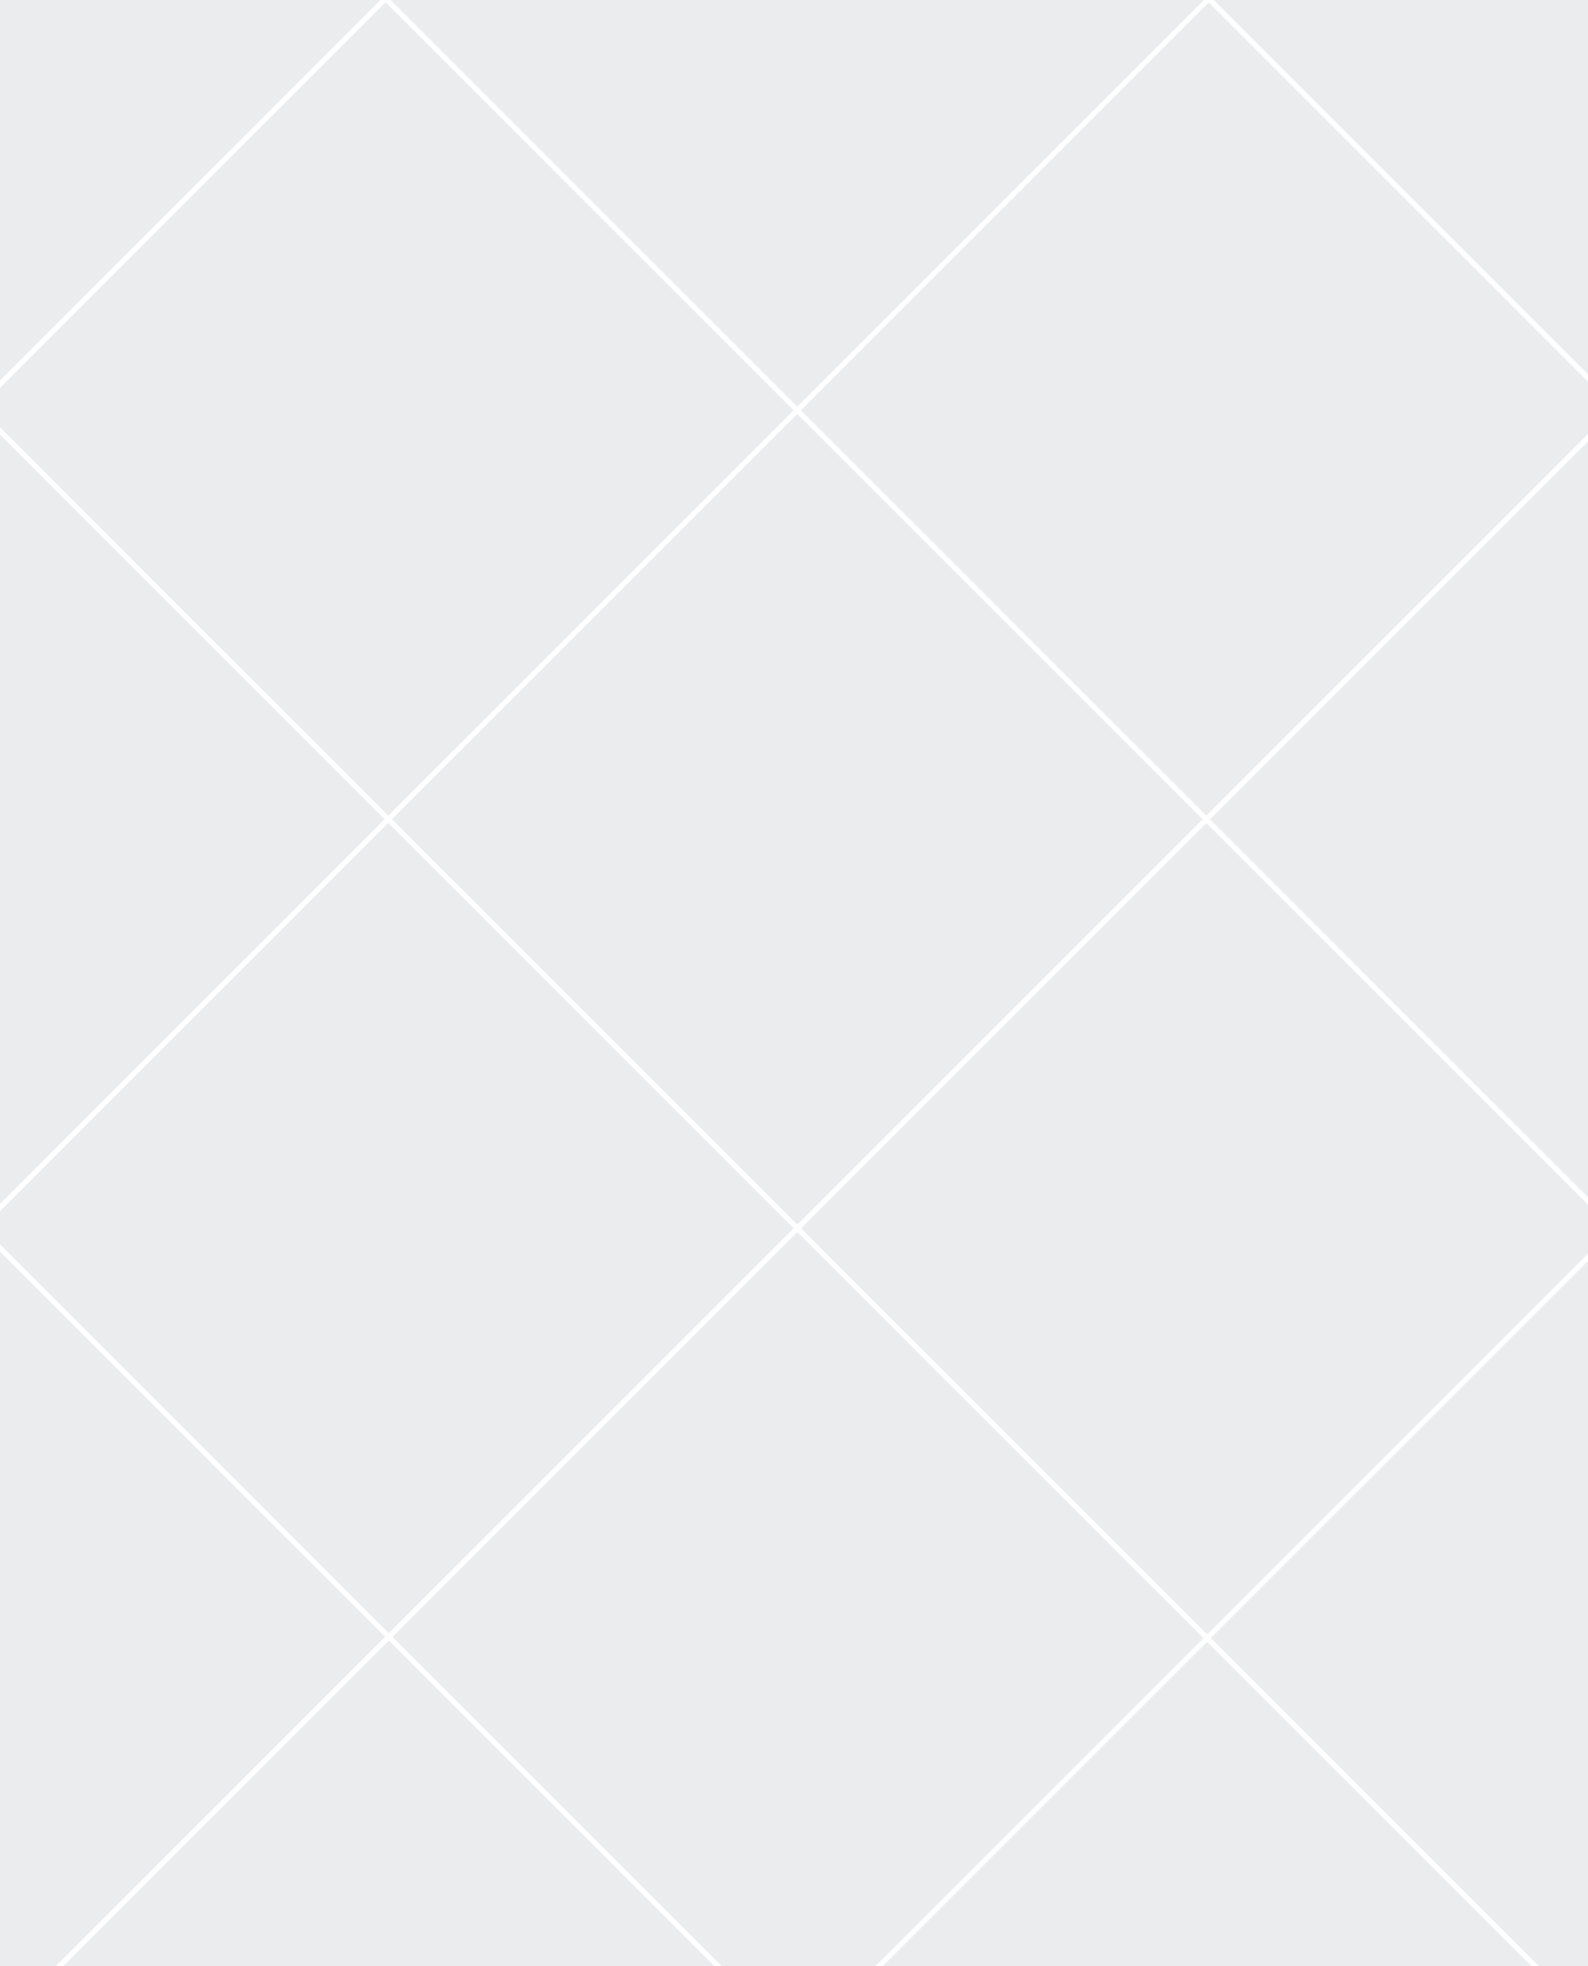

**Award-winner as the European City of Sport 2009** and headquarters of the Davis Cup, in Marbella you will find some of the best opportunities to practice your favourite sports. From football to horse riding, baseball to basketball, beach volleyball to paddle or football, Marbella has one of the most complete sportings offers in the Mediterranean, where tennis, golf and water sports have the greatest presence. **Marbella offers the highest concentration of golf courses in continental Europe with 16 top quality.**

Unparalleled shopping, Marbella offers the best and most exclusive global brands in Puerto Banus, the charming shops in the old town, multitudinous weekly street markets and shopping centres.

# About Quirónsalud Hospital Group

Quirónsalud is the most important hospital group in Spain and third in Europe. We have medical centres in 13 Autonomous Communities and use the most advanced technologies, with over 6,200 beds in more than 120 medical centres, such as Fundación Jiménez Díaz, Ruber, Hospital La Luz, Teknon, Dexeus, Policlínica de Gipuzkoa, etc., and an excellent team of highly-specialised and internationally-recognised professionals.

We strive to promote academic training in health disciplines (seven of our hospitals are university hospitals) and medical-scientific research (we have the Instituto de Investigación Sanitaria de la FJD, which is the only private research centre certified by the State Secretary for Research, Development and Innovation).

In the same way, our health service is organised in transversal units and networks which enables the optimisation of the experience gained in the various centres and the translation of our research to clinical practice. At present Quirónsalud is developing over 1,600 research projects in the whole of Spain and many of our establishments are currently developing cutting-edge projects, being leaders in various specialities such as cardiology, endocrinology, gynaecology, neurology and oncology, amongst others.

**Quirónsalud, contigo dónde tu estés.**

Más de 100 hospitales, institutos y centros médicos dedicados a tu salud en 13 comunidades autónomas: Andalucía | Aragón | Baleares | Canarias | Castilla La Mancha | Cataluña | Comunidad Valenciana | Extremadura | Galicia | Madrid | Murcia | Navarra | País Vasco
